

## **Mike Fennimore donation #2**

**Mike Fennimore for the second year in a row has had his elk processed into hamburger, and then donated his cut, wrapped and frozen burger to the Tacoma Salvation Army food bank for our chapter's Sportsmen against Hunger program.**

**Mike sent his coolers full of meat North via Ken Nagel. I met up with Ken at the Hilton Convention Center first so that he could take some measurements for his revised placement of the vender booths during our February banquet.**

**When we arrived at the Salvation Army food bank distribution center, Ken and I met up with the outlets director Helga (see photo). I have dealt with Helga for over ten years now at the food bank, going back to when we used to donate most of the meat taken during our Youth Hunts in Oregon.**

**The Salvation Army and Helga are always very thankful to get donations of meat as meat is what they get donated the least. They are especially grateful to get donations like this during the holiday season.**

**Ken and I both got a big hug and a profound thank you from Helga. The real thank you however belongs to Mike as Ken and I were just the messengers. I wish Mike could have been there himself to see the genuine appreciation of his donation!**

**The Northwest Chapter of Safari Club International and the Salvation Army want to say "thank you Mike" and good hunting next year!**
